Major Considerations in PPP Training

- Focusing to make PPP practitioners
 - Build their capability to develop overseas PPP projects
 - Keep balanced approach to make both parties, -- public and private -- satisfied and happy
 - Have a clear understanding between government initiated PPPs and unsolicited proposed PPPs
 - Have a clear understanding of the importance of collaboration among a lot of stakeholders
 - Keep in mind the close relationship between preparation and execution phase as a continuous and connected process

The Value of PPP Training for EMDEs(Developing Countrys)

- To promote every country to be equipped with **human resources** required in planning and implementing of the infrastructure development
- To have every country mobilize **financial resources** for infrastructure development in optimal conditions
- Certified PPP professionals are the in-takers of the **foreign developers and investors** who are the global players

Comments by the Certified PPP Professionals

- **“Now we can communicate in the same language in a PPP world!”**
- **“PPP Guide enabled me to draw the total picture of PPP business.”**
- “It was so thrilled that I finally found right reference which provides the exact meaning of the terms which I encountered in the field work but I could never be confident of.”
- “The suitable preparation of PPP framework by the government is the starting point of the PPP development in each country.”
- “Certified PPP professionals should be recognized as an essential asset of the each country.”
- “Certified PPP professionals could be a highly respected experts in developing countries.”
